this book includes a selection of papers presented at the third world conference on qualitative research wcqr2018 held in lisbon portugal on october 17 19 2018 the wcqr2018 focused on four main fields of application education health social sciences and engineering and technology and seven main subjects rationale and paradigms of qualitative research systematization of approaches with qualitative studies qualitative and mixed methods research data analysis types innovative processes of qualitative data analysis qualitative research in contexts and qualitative analysis with the support of specific software given its breadth of coverage the book offers a valuable resource for academics researchers teachers and students seeking information on the above topics and on the use of computer assisted qualitative data analysis caqdas

juan carlos tedesco a prominent argentinean sociologist argues that qualitative studies of education in latin america represent a major challenge to current research latin american qualitative researchers are producing interpretive studies that focus on the realities of current developmental and educational reforms indigenous communities women students and teachers are given voice in these studies which represent the state of latin american ethnographic qualitative and participatory research this is the first book in english to offer a state of the art collection of educational qualitative research studies in latin america the first three chapters present an overview of qualitative research while the remaining seven chapters provide studies that explore various aspects of education from public schools to informal educational programs

no es solo el contenido académico lo que hace especial a este libro es la propia concepción de la investigación y su comunicación lo que le convierte en una obra que va mucho más allá de su especialidad la investigación acción para el desarrollo territorial esta obra colectiva coordinada por la investigadora miren larrea hace una apuesta decidida por modificar los patrones clásicos de la comunicación científica en absoluta consonancia con la naturaleza de la investigación que proponen sus autores el libro incorpora distintos tipos de textos para recoger un diálogo entre investigadores y agentes implicados y favorecer así una escucha mutua pero además recurre al multilingüismo para que los autores comuniquen mejor lo que quieren comunicar y a quienes deben comunicárselo ambas opciones diversidad de textos y multilingüismo conectan mundos que deben estar ligados investigadores y actores en lo territorial lo local y lo internacional el idioma con la investigación apegada al territorio y lo teórico con lo aplicado de este modo los autores velan porque la investigación permee y llegue a su destino natural pero también porque crezca gracias al intercambio de conocimientos y experiencias que propician a través de las formas de comunicación elegidas se pone de manifiesto la necesidad de que la investigación social suceda no solo en el ámbito de lo académico y no solo en inglés por eso tiene un valor singular incluso para los no especialistas en

este tema que hay que agradecer a su editora al conjunto de coautores y a la editorial elea giménez toledo investigadora del csic

this book brings together texts that involve research covering various topics the main objective of this work is to highlight the plurality of methodologies bibliographic sources and objects of study that circulate in the most diverse countries in the postgraduate area

an interdisciplinary journal that publishes original research and surveys of current research on latin america and the caribbean

this book is derived from selected papers from the fourteenth international congress on mathematical education topic study group 12 teaching and learning statistics it describes recent research on curriculum pedagogy and outreach initiatives from countries as diverse as brazil chile columbia denmark germany the netherlands spain sweden thailand turkey the united kingdom and the united states the book has a focus on the use of data in the teaching and learning of statistics across grade levels and begins with an overview of the status of statistics education and the use of data from seven different countries across the continents and the link between research and practice in those countries because it contains specific examples of the research for example on the ways children learn the choice and implementation of tasks or the role of informal inference the book will be a great resource to those interested and involved in the teaching of statistics curriculum developers and statistics education researchers

this book presents procedures and research techniques that are based on critical perspectives of psychology and education the content is characterized by innovations on the relationship between the researcher and the investigated context and it problematizes different perspectives and approaches to the psychological phenomenon proposing new understandings of the subject the world the social and the field of investigation itself as a permanent dialectical movement the book reports to marxist based perspectives especially to vygotsky s ideas and concepts therefore it assumes the comprehension that in order to understand the phenomenon in its historical dimension it is necessary to put it into motion seeking to access the genesis of the manifestations evidenced at the moment of the investigation that is the historicity that characterizes the process of constitution of the human psyche can only be apprehended in its movement thus what matters is the process and not the product of its development nevertheless apprehending phenomena in movement is a challenge for researchers interested in human processes within the scope of relationships or practices of professionals and or subjects of various scenarios which leads to the need to problematize the different moments of research and their dimension in the theoretical and practical fields which methodological techniques or procedures allow the apprehension of the meaning movement produced by the subjects in the investigated scenarios to what extent does dialectical materialism derived from marxism support the apprehension and analysis of research information of this nature what other theoretical methodological perspectives related to cultural historical psychology offer subsidies to

these investigations the theoretical perspectives based on the social and cultural analysis focus on the understandings of collective contexts precisely because of the subject view constituted in the inter subjective relations that it undertakes which adds even more complexity to the investigative processes from this perspective both the subject and other participants transform themselves during the investigation such transformation needs to be permanently reflected and included in the research objectives and purposes in order to follow the movement of the meanings in the expressed phenomenon
